

THE DIFFERENCE

The Difference Is That LiUNA! Works Safe!

Laborers are local construction craft workers who are well trained, safety tested, on time, and prepared to work. The Laborers' extensive training programs equip workers with the necessary skills and experience to work safely and efficiently.

Safe workers and safe work sites increase productivity, reduce costs, and save lives. LiUNA! makes this easy and affordable by training our members on a wide range of health and safety issues.

- Customized site safety plans and safety training and information to reduce accidents, injuries, and workers' compensation costs

- On-site safety assistance to help contractors solve difficult safety problems
- Expert safety and regulatory advice by phone, fax, or e-mail to assist with compliance

Through the LOTS Safety Program Initiative our members are well-trained, highly skilled Laborers who benefit from programs and services that make the workplace safer.

LOTS is sponsored by the Mid-Atlantic Laborers Cooperation Trust (LECET Mid-Atlantic)

Partnering with **LECET** – It's Win-Win-Win!

It's a win for the public, a win for the contractors and developers, and a win for workers.

THE **LOTS** SAFETY PROGRAM

WE HAVE THE SAFEST AND BEST TRAINED WORKFORCE ANYWHERE. PERIOD.

With LiUNA! Safety Pays

The Laborers' On Time & Safe (LOTS) Awards Program may be sponsored for a specific project at the request of a Local Union Business Manager or signatory employer representative. The program is only available to Laborers in good standing employed on that project. Awards may be earned over the duration of that project only. Exception: With prior approval, Laborers who are transferred to other projects by the same employer, may carry their earned work hours with them.

Awards pictured can be earned by working the hours listed for each hit without a lost-time accident and maintaining an outstanding record of on-time attendance.

Work hours cashed in for awards do not accumulate towards acquiring other awards. For example, if you have 1300 hours and claim a Summer Cooler (1200 hours) from awards, you now have 100 hours left which will be added to any future hours earned on the project.

You may claim as many awards for which you can earn hours, including duplicate awards, during the project sponsored. When you experience a lost-time accident and/or lapse in on-time attendance, all work hours accumulated up to that point are erased.

You should keep track of your own work hours and notify your Local Union when you believe you are eligible for an award. Local Union Business Managers will verify all award requests with your employer.

Awards will be presented to winners at Local Union membership meetings, or on the jobsite. Pictures of the presentation may be taken. Please allow 2 to 3 weeks for delivery of awards.

For more information, please contact the Mid-Atlantic Laborers' Cooperation Trust (LECET) at lecetmidatlantic.com.
